

ZUO EN

Full-Stack Engineer

CONTACT

Tianjin, China
wepndroid@gmail.com

FOCUS AREAS

- Full-stack web and mobile products
- Frontend, backend, and API implementation
- React/Next, Angular, Vue, PHP UI
- Flutter and React Native apps
- Cloud-ready product builds

CORE STACK

Frontend: React, Next.js, TypeScript, JavaScript, Angular, Vue, HTML5, CSS3, PHP
Mobile: Flutter, React Native, cross-platform app UI, mobile-first interfaces
Backend: Node.js, Express, Python, Go, FastAPI, Flask, gRPC, REST APIs
Data: PostgreSQL, MongoDB, Redis, data modeling, admin workflows
Cloud: Docker, Kubernetes, AWS, GCP, CI/CD, deployment pipelines

SERVICES

- Web application builds
- Mobile application builds
- API and backend delivery
- Admin dashboard delivery
- MVP build and launch support

STRENGTHS

- Product-minded delivery
- Reusable code architecture
- Quick framework adaptation
- Dependable startup execution

PRODUCT TYPES

- SaaS dashboards and portals
- Commerce and marketplaces
- Mobile-first MVP products
- Business workflow platforms
- Admin and reporting systems

Zuo En

Full-Stack Developer | Web Platforms, Mobile Apps, APIs & Cloud-Ready Systems

PROFESSIONAL PROFILE

Developer focused on production-grade web platforms, mobile apps, backend APIs, and cloud-ready product systems. Hands-on with React, Next.js, Angular, Vue, PHP, Flutter, React Native, Node.js, Python, Go, SQL/NoSQL databases, and deployment pipelines. Known for clean architecture, responsive UI, reliable integrations, maintainable code, and practical startup delivery.

Frontend Platforms

React, Next.js, Angular, Vue, TypeScript, PHP-based systems

Mobile Products

Flutter, React Native, cross-platform app flows, UI and integrations

Backend Services

Node.js, Python, Go, REST/gRPC APIs, auth flows and business logic

Cloud Deployment

Docker, Kubernetes, AWS/GCP, CI/CD and database-backed releases

PROFESSIONAL EXPERIENCE

Beijing Matai Software Development Co., Ltd. | Dec 2024 - Dec 2025

Senior Full-Stack Web & Mobile Developer

- Built web and mobile product features across UI, backend APIs, data workflows, auth, and production delivery.
- Created maintainable screens and API-connected services for business platforms, commerce flows, dashboards, and mobile apps.
- Improved usability, responsive quality, service structure, deployment readiness, and team handoff clarity.

Suzhou Zhuryn Software Development Co., Ltd. | Aug 2022 - Jul 2024

Full-Stack Web & Mobile Developer

- Shipped web and mobile applications with reusable UI, backend endpoints, database features, and testing support.
- Connected REST/GraphQL APIs, auth flows, forms, dashboards, mobile screens, and third-party services.

Hunan Piizu Network Technology Co., Ltd. | Apr 2020 - Mar 2022

Full-Stack Developer, Web & Mobile Products

- Developed responsive web platforms and mobile app features across frontend, backend API, database, and iteration work.
- Supported software, mobile, web, and IoT workflows by linking UI screens, server logic, data handling, and deployment tasks.

DELIVERY AREAS

Web Platforms

SaaS screens, dashboards, portals, admin UI

Mobile Products

Flutter/React Native apps with API-driven flows

Backend APIs

APIs, auth, data stores, deploys and upkeep

EDUCATION

Taiyuan University of Science and Technology | 2015 - 2019

Bachelor of Computer Science and Technology

BEST-FIT SOLUTION TYPES

SaaS & Admin Platforms

data-rich UI, permissions, charts, filters, forms, reports

Web + Mobile MVPs

shared product logic across web, app, API, and database

Commerce & Marketplaces

catalog pages, checkout, accounts, payments, order flows

System Improvement

frontend cleanup, API refinement, database and deployment upgrades

WORKING APPROACH

- Confirm users, platform scope, mobile needs, backend/API state, database requirements, integrations, deployment target, and release priorities.
- Shape practical architecture with reusable UI, clear API boundaries, predictable data models, secure auth, and maintainable structure.
- Ship polished, stable, responsive, API-supported features that client teams can extend after launch.

END-TO-END DELIVERY COVERAGE

Solution Architecture

frontend screens, mobile flows, APIs, database design, auth, roles, and deployment planning

Release Readiness

responsive QA, usability checks, integration testing, performance cleanup, and post-launch support
